LAB BILLING POLICY

Please read carefully and sign at the bottom. A copy will be provided to you upon request.

Unless you request differently, all lab work will be sent to Quest Diagnostics. If your insurance company requires it to be sent elsewhere, please let us know before any lab work is collected. Our office bills for the physician's office visit portion, but you will receive a separate bill directly from the lab for their processing of any specimens. Specimens obtained can include tissue, swab, or urine specimens, cultures, biopsies, pap smears, blood work, etc.

As a courtesy to the patient, any insurance information that you have provided prior to collection of the specimen will be given to the lab so that they can submit it for processing. However, this bill will remain the patient's responsibility. If no insurance information is given, then 100% of the lab charge will be billed directly to the patient by the lab.

If you have any questions, please ask our office personnel for clarification.

I have read and understand the above policy and agree to abide by its terms.
